

PSYCHOLOGY OF HEALTH BEHAVIOUR

A one-day workshop exploring the psychology of health behaviour

This workshop is for Health Promotion Specialists, Sports and Physical Activity Officers, Health Trainers, Voluntary Sector partners, and anybody working to improve the healthy lifestyles of others.

It will provide you with new insights to understand your clients better and maximise your delivery.

Explore....

-  The four keys to persuasion
-  Why and how we make the choices that we do
-  Why we procrastinate and can't make ourselves do the things we want to
-  Why we can't seem to improve our lifestyles for a healthier future
-  Why we are naturally inclined to take risks
-  New tools and techniques to help your clients and service users work more successfully towards their lifestyle goals.
-  How you can improve the power of your marketing to make your projects more effective.
